

Basic Internet Searches

On your desktop, open (left-click, or double left-click) the icon for internet

Use  to help you find what you need

Put your cursor in the search box

You will know Google is ready when you see the cursor flashing in the box

Enter some search terms; make them meaningful and relevant (for example “the Gardens” are too broad, “The Gardens at Qualicum Beach” is much better).

Hit enter on your keyboard and see your results

Google is quite good and returning accurate results and the information you are looking for will usually be contained in the first few results

Click on the underlined link to take you to the webpage you want. You'll know you

are about to click in the right spot when you see the cursor change to a
